

AUGUST SOMMERSTAD

THE BOOK OF THE VISI-
GOTHS

An attempt to under-
stand our age religi-
ously -

Referances, modifications, inno-
vations -

A synthesis of Christianity and
culture-radicalism -

Inspired by Nietzsche, the Bible,
Eastern religion, Nihilism, Soci-
alism, Identitypolitics, Epicurus,
European history and European gra-
nd politics -

A Political, religious-Philosophi-
cal, Ethical-Mystical teaching -

The Terrace -

An attempt to take back the
development of Christianity
to Europe and the West -

An outcry against all
forms of tyranny -

1. The source of the Universe, Life and Mankind, is One:
The Action!
And the Action was in God and Mankind - in the atoms; as status and as both origin and consequence, as good and evils origin; for whoever do not relate through cleansed and clarified or uncleaned and unclarified emotions, and acts - submits, and he who acts becomes the starting point of reality.
But in the Action was also the Word, founded in Mankind's consciousness, and the Word created and falsified the psychic reality; made good into evil and made evil into good, and the Word was moral.
2. The Crucified against the moral and immoral powerpersons rational and irrational prejudice and abuse.
3. Saved, not just from Sins but also from Prejudice and abuse.
4. For the Crucified saves you not just from your own sins, but also from others sins against you.
5. Mankind created itself, out of greatness, freedom and a sense of happiness, God's Image, in an endless Greatness, Knowledge and Celebration of Life thirst no authority could put out; only on a earth ruled by will, instead of Greatness consisting of different natures, where one were the Starting point, and one were the Reaction, it was possible.
6. But the principles in the abyss, which from the beginning of time as a principle, not as a physical being, had been God's opposite, and had represented the opposite principles of the Holy Trinity; God, Christ and Mankind - for atoms meant energy and energy meant negative energy;
the self-glorifying, the psychologically impure, the camouflaging, the ones which had to, the ones which did not want to be humiliated;
they had tried to introduce dualism in the original world, but it failed, because all things were restored and were put into its right context, had part in the Creation at one point:
The Action!
all the other:
the exceeding, the insight, the celebration of life, the independence, it did not know, it did not need, it could not stand;
and they did a failed attempt to do as Mankind had done, create itself, feel the body being strengthened by the spirit, but only a gleam arose, and out of this gleam Satan, God's enemy, were created; the Fifthinity of the Creation were dirtified with power, something it did not know as relation, only as protection;
Satan dragged us down on Earth from the Garden where the three protected us from his rationality and irrationality, so that the Evolution started, and since God was power in the original world - and it, morality and immorality were power on Earth, because the Evolution made it the starting point, when the Earth were not used for celebration of life, as it were meant too, as a source of endless life - it forged and falsified it so it seemed like Morality and the Powerperson represented God;
and thus created the idea about the Falsified, Historical God, as the great world Religions worship:
Judaism, Christianity, Islam.

7. For Light wants eternity and eternity wants light - and everything that is neither moral nor immoral, continues on into the light: the rest are being dissolved, because most of our free choices between Good and Evil which leads to punishment, were based upon un-free circumstances - and they will not get to experience returning to the Earth without morality, Immorality and the Evolution, to experience Celebration of life there for all eternity.
8. But the eternal Life is also spiritual, and it is like a explosion of light in the dark, where depth, substance and movement arises, and sparks a neverending act of creation.
9. For Gods goal with Mankind is inner and outer freedom, this is proven by the fact that God is light, and therefore Mankind is light to, which wants to explode and break free - Gods goal with us is not shame, abstinence and obidience.
10. There will be no final war or judgement, but a dissolution of all powerrelations, which will restore all things and put things into its right context: makes Good into Good and makes Evil into Evil, so that the one shall no longer be mistaken for the other.
11. Satan both as a psychopath and a powerperson makes us suffer, and we suffer when we must relate without energy and active action, and that is when we submits, something God wants to save us from, because He can not stand to see us any less great than what He is; we suffer when we relate without greatness, freedom and sense of Happiness, the same way the adolterous woman has suffered, under the burden of property-concepts.
12. Then God has also given the believers conversion to the Greatness.
13. For the life of Mankind, tragic and great, can best be compared to a purplerobe - what the Crucified died for, were not our sins, but our Greatness, freedom and sense of Happiness, our rights.
14. We did now not have a obediẽnce relationship, but a Greatness relationship towards God - and true Greatness is power over yourself and not over others.
15. For only being able to, like the Psychopath and the powerperson, which rules best trough Love, and trough that gives us all of the negative emotions, relate trough power is not good enough - for Mankind has dominion over his own mind and body.
16. For we Kyrists, Knights of the Cross of Presence, believes in a God which lets the right person be ashamed, over both moral and immoral shamlessness, and who teaches that my neighbour is he who which did not seek power over me.
17. Because it was force Christ truly rejected in the Crucifiction - because the Romans forced him.
18. For it is not carnal desire, but the social prejudize and social control which breeds sin.
19. And God has trough the Historical struggle between the powerperson and the powerless, made it so that Good and Evil is natural selection, and that Good and Evil is Paralell tracks in Time and Space.
20. Mankind is no longer obedient towards God!: we seek Him out! Mankind represents God! We interact with Him!
21. Our idealman is a Roman without the drives for property and violence and a Christian without the sense of shame and guilt.
22. For the name of the life and the lamb is the purplerobecross.
23. You shall not have your self status in others, but in your self, so that you do not need to control, submit or make pact to achieve your self status.

24. For he who has Greatness inherits eternal life.
25. And true Greatness is power over your self, and not over others.
26. The enlightenment and tolerance of the man of the world.
27. Relationethics.
28. Methodethics.
29. Reveal connections of interest. Reveal causes. Reveal methods.
30. Give name to the things or be given name to yourself.
31. For love is not an act of salvation, that gives hope, but an act of discharge that gives happiness.
32. Defend so the individual and the groups value-evolutionary and evolutionary-psychological rights, duties and freedom.
33. If God is what came first - and not what came gradually, little by little, then certain attitudes and motivations will appear as more likely and more credible - and then those attitudes and motivations will be those of ethnicity, gender and orientation.
34. Love your neighbour because he wants to himself, and as he wants to, and not with a loving kiss on the cheek, and judge him for what he is, and not out of rumour and impression, label and need.
35. You shall not confuse the drives for property and love with morality.
36. The slogan of the Roman Empire, The Christian Europe and Modernity as greatness enlightened conscience.
37. Promote the focus on rights in the European Grand politics, and push aside the focus on power in European Grand politics.
38. Neither morality nor morality, neither victim or abuser, neither pack-animal or psychopath, neither obedient nor disobedient.
39. Prejudice, abuse, control drives, conceptions, social status and narrow normality, unjust laws and laws that are broken without a right.
40. We are sinners that want Justice.
41. Pack-animals, psychopaths and powerpersons - what kind of joys is it that they have!?
42. Then seek happiness and improve your qualities through both Christian virtue and Roman skillfulness.
43. For we shall not only be rewarded according to our good or evil actions, both also according to our intentions, our destiny, and others actions towards us.
44. Happiness is to not have to see yourself through the eyes of others, and not have to relate to others instead of to oneself.
45. Can you remember when we sat around the meatpots in Egypt, drank Mint-tea with spice and ate un-soured Raisincakes made with fine flour?
46. Teach your self to feel clarified and to think clarified.
47. Chainbreaking-Mysticism.
48. Theology of Greatness.
49. What Christ really wanted to preach with the forgiveness of Sin, was a moral way of life, instead of a moral concept of property.
50. Something is therefore allowed - as a moral way of life, and something is therefore forbidden - as a moral way of life.
51. For only the God which out of Greatness, preaches the moral and the immoral, both as a pack-animal, psychopath and a powerperson, can save, and it is only the Individual in us all, and its true nature, Greatness - beyond superiority and inferiority, and Celebration of Life - beyond power and powerlessness, which is the path to salvation for us all, and you get saved from the moral and immoral powerpersons prejudice and abuse, both as rationality and as irrationality, into a will-fellowship with God, as God is great, Mankind is Great too, as we created ourselves in his image, as creating, thinking and chainbreaking - so that we thus can

receive eternal life through Greatness, and through celebration of life, in both the material and the emotional dimension - and all true greatness is thankful, generous appetite for life, with chains and a light that are about to burst - without a will to power that are selfish, but with a will to relation that that overcomes oneself and sees others clarified, without felt injustice, which has power over oneself, and not over others.

52. God allowed and wanted that Mankind, out of principles that had been there since the first dawn of Time, should create itself, as long as it happened out of an endless thirst for Knowledge, Greatness and celebration of Life, in the form of an individual which no longer is opposed to a fellowship, because the fellowship do not need to control him to love him, so that we would be Gods completers, and not His Eternal, Impure, Despised opposite: we should therefore avoid a bond, a relation as Mankind itself did not want.
And so power became declared unwanted in the Creation, and only the Individual and the Fellowship, as neither a pack-animal or a psychopath, was natural.
53. For with the inauguration of Celebration of Life under Greatness to all the worlds greatest idea, and as Gods promise, through that Gods and Mankind will again were re-united, through the dissolvement of Starting Point and Reaction - but everyone is their own reality which expresses the same, God at the same time made morality and immorality in the form of pack-animals, psychopaths and powerpersons, into something contradictings of nature - because we no longer believed in the moral concept of property, but the moral way of life, and it was Satan, who were, solely, to blame for the Original Sin, which were not dis-obedience, but power, and God sent Christ not to re-unite Mankind and God because of its weaknesses, but God sent Christ to save us from Satan, the moral and immoral pack-animals, psychopaths and powerpersons.
54. We are saved, not just from sin or from suffering, but mostly from oppression.
55. We Kyrists, wants to make Europe in the 21st Century into to a Divine Anarchy, in the form of Spirituality, social rights and celebration of Life - based upon the positive sides of the age of enlightenment, the renaissance mans qualities and the attitude towards life of the aristocracy, with lightly cultivated original and new citizens with respect for all occupations of life, which paves the way for a ecological democracy, where happiness is neither in the destructive or in the moralistic.
56. Nationalism is on the rise in the streets of Europe, couples choose away traits, diseases and gender, the divide between rich and poor are increasing, a lot of men remains unmarried and without children, the politicians does not come from certain occupations of life or classes, the threat from a global Khalifate, counterfeit products, prosecutors building cases, prosecuting everything society fears, human trafficking in almost every occupation, western converts recruited to terrorism, price-tag politics, 25-cents politics, quicksilver in fish, ghostfishing, bioaccumulating and persistent pesticides, Christianity reduced to elitistical identity shopping - the Schizophrenia diagnosis - the individuals freedom is replaced by freedom of religion: environmental crisis, food crisis, oil crisis; wake up! Beware!

57. Be then a Human being with ideals and natural feelings where the situation demands it - and see the ideals for what they are: both possible and impossible; and be then a Citizen with Norms where the circumstances expects it, and see the norms for what they are: both natural and unnatural.
58. Local and National Identity as mutually shared, as mutual exchange, as mutual influence.
59. Because the Crucified sees Good for what it is, and He sees Evil for what it is.
60. What Christ taught us towards the crowd with the adulterous woman, was to separate between the real and clarified sins, and the imagined and un-clarified sins.
61. Non-infliction Ethics.
62. Context-ethics: "The way society can be (when that is the most advantageous), and the way society is (when that is the most advantageous).
63. Take off your looking glasses, enter the Kingdom; enter the Kingdom, take off your looking glasses.
64. You shall act as none of the involved had a right towards each other.
65. You shall not confuse Prejudize with morality.
66. Attitude towards life and others against the evil madness of Man.
67. How you look at yourself and treat others against how they look at you and treat you.
68. Value and meaning-creating Mysticism.
69. Happiness is that others do not see you as a proof for their idea, and do not use you as an outlet for their needs.
70. Virtue and Skilfulness.
71. Man and Womankind is limited and not perfect, but it is Great; and it has both an un-changeable will - where we is not in or through something else, and it has a free will - where we is in and through something else.
72. God saw that everything He had created was Good - but Man and Womankind became unhappy because of Social prejudice and Social control, because it was the Earth and not eachother we were supposed to rule.
73. Heaven and Hell as complex reasons and valid interest.
74. Clarified reward or punishment.
75. Roman conscience regarding qualities, and Christian conscience regarding morality.
76. A Christian with conscience without prejudice, and a Roman without exploitation which towers in the room.
77. Make so yourself a master over your lower carnal desire - in the form of jealousy and gossip, portrayed as morality; where this is evil as good, and perform your higher carnal desires - in the form of generosity and independence, portrayed as immorality; where this is Good as evil.
78. The Cross as emotional refinement or the Cross as emotional blackmail.
79. You are saved, improves your qualities and achieves happiness through both virtue and skilfulness, in the form of a clarified moral way of life, instead of a un-clarified moral concept of property.
80. ThePrejudize and abuse of both moral and immoral pack-animals, psychopaths and powerpersons, which makes Good into Evil and Makes Evil into Good, through the Words inversion of virtue and skilfulness.

81. You shall separate between Good and Evil acts, but do not divide Mankind into Good and Evil individuals or groups.
82. Left-wing politics and government control, when it comes to hospitals and schools - and Right-wing politics, when it comes to lifestyles and privatelife.
83. This message is first and foremost not about what Christ said or did when he was among us, but about what Christ and the first Christians were exposed to.
84. We Visigoths believe in spirituality, social rights and celebration of life which are against social and state prejudice and social and state control, and refuses to submit to any form of faith, superstition and ideology which allies with societys negative side, and therefore, but possible also in themself, are harmful to mankind's sanity.
85. Global participation, as defending values and protecting national and continental sovereignty.
86. Include Western rights and duties in grand politics and exclude Western privileges and injustice from grand politics.
87. The democratic majority's narrow or extended concept of normality and the democratic majority's narrow or extended concept of morality.
88. Guardian-sin.
89. The insights, driving forces and tasks of the genius, heroes and martyrs, which fight and take over, but never submits - unless it is all over - to the concept of sin, normality and racism.
90. We Visigoths, consider us to be the rightful heirs to Christianity's virtue and skillfulness and to the modern West's enlightenment and tolerance.

GENESIS:

The Universe, Life and Man and Womankinds Source, Beginning and Spring is One -
 The Action! :
 and the action was in God and in Mankind, in the Atoms, which contained the New Earths intoxication, insights and Mysticism in itself, transformed through evolution to the anxiety and hunger -
 because the one that do not relate, through cleansed and settled emotions or through un-cleansed and un-settled emotions, and acts - submits, and the one that acts becomes the starting point of reality -
 and the Number of Life were immanent in the Action: 0
 the inverted image of the evolution arose when Satan, dragged us down on Earth, from the Garden of Eden, where Satan tried to fool us with not eating of the apples, as God gave us the tree as a protection against Satan - as Eve, with Liliths qualities, liberated us from by eating of the apples -
 something Satan would try and stop us from doing, because he knew that insights were crucial to Man and Womankind as the Synthesis of the Carnal-Spiritual triumph: it meant evolution --- on Earth, created for our exploration, reality became divided: we were not anymore everything; morality were something - that is intelligence and prejudice, and we were something - that is powerlessness and tolerance; love in us expressed itself as violence, and violence in them expressed itself as love -
 their desire for salvation were really just a desire for unity from this opposite -
 a struggle arose and we lost ---
 because love had to protect itself through violence in the form of morality and immorality, in the outer, physical, material world; this because love was helpless just as itself -
 the struggle to lead yourself or to be led by others started, through the Word, which first creates, then falsifies the emotional reality -
 a potent or impotent relation to oneself and to the inner and outer reality, visualized itself for Mankind -
 we learned, driven by the anxiety and the hunger, to slaughter --- something God originally had banned us from doing -
 The Anxiety raised us up and the Hunger gave us direction -
 the to-sidedness of the evolution arose when Satan pulled us down on Earth through a spark in the matter - it was the high energy collisions that man and womankind had shot beauty into so that man and womankind should discover and use the cosmos qualities and possibilities as a Gateway to the Universe, which made this possible -
 the roles were turned upside down, and Satan - that is morality, pack-animals, psychopaths and powerpersons - when they inflict and falsify the Word, became superior and positive, and the powerlessness became Evil - disturbed, sinful, inverted ---
 the Fallen World were now a established reality on Earth, everything Man and Womankind created out of the will to relations virtue and skilfulness were products of escape -
 but it were prejudice and powerabuse that had made us fallen, not reason or disobedience, and not the carnal desire ---
 the celebration of life, the reason and freedom raised us up again -

But in the beginning were the Action:
 and the action, which was the worlds essence, both as inner and outer reality, which were not just social status, but also consequence and origin, was in God and in Mankind; God grew and expanded --- the one and only God - which saves both your dreams and your soul --- and after the light and the energy, God woke up, after a long slumber beyond time and space; God is what developed gradually, and not what came first --- because all first causes are strangers to Man - God as an essence and an idea - a root existed from eternity on, but his traits and qualities developed trough time -
 and God created the Universe, the stars, the planets, and all of the galaxys, and not least: the planets movements which creates life - completed the sub-atomic particles own work, so that energy became matter - and God then gave the Matter spirit, and gave the spirit intoxication, insigths and mysticism, to give the Anxiety and the Hunger, a direction -
 And Man and Womankind created itself out of Greatness, freedom and sense of Happiness; Gods image, in a neverending thirst for Greatness, Knowledge and Celebration of Life, that no authority could extinguish -
 only on a earth ruled by will, will to relation, consisting of different natures and types - as predator and prey, active and passive, always with a pendulum-balance -
 only then was it possible to control our inner knowledge about ourself: that we exist in ourself and out of ourselves -
 The Anxiety raised us up again, the Hunger gave us direction, the Action made us aware with consciousness, and the Triumph shaped and formed us -
 this is the chain with four pieces of law of growth that God gave to us when the evolution started as a method of returning to the original world - and the will to power or the will to relation approaching us; because we are not saved by mercy - but trough the Great Individuals virtue and skilfulness -
 by God meeting us on the halfway ---
 not just love as morality, but love as aesthetic celebration of life were Gods image and plan with us -
 for everything arose from dream, mystery and melancholy - which ecstasy arose from; but when Satan pulled us down on Earth, Created by God and the Particles together - because two as unity and not two as divide, expands our minds, but raped by Satan with power and morality: prejudize and abuse, control and drives, conceptions, narrow normality and social sttaus, so that the Earths role as a source of endless life, were disturbed and inverted, so that the evolutions to-sidedness started, man and womankinds true inner and outer nature: greatness, beauty, strength, became our inner prison and only possible to express trough inversion: violence and hatred; the powerlessness were generous and the power were prejudized -
 this division of natures and types created the early Man and Woman-kind which now pack-animals, psychopaths and power-persons as infliction and looking glasses - had a natural part of: it was the human race itself; this was possible becuae Mankind created itself as Greatness as both inner and outer reality - but without the Word; God was the Word, and this is how the Evil principles of the Original world, arose as a gleam as Satan -
 God wanted that Man and Womankind as as a part of the Cosmological plan, should create itself, so that they could themselves be wise, beautiful and just -
 so trough this not be Gods eternal, impure, despised opposite - but be his completor -

We completed the Cosmological plan: as Earthly-Spiritual and as Greatness-Celebration, and as Virtue and skilfulness, with our own strength - happiness, as Love without infliction and looking glasses - in the time when the Human soul nourished itself upon emotions, perceptions, moods, memories and experiences; where only reality were sacred and where only dream mystery and melancholy were real - because Gods image were not morality - as a concept of property, but as a moral way of life; God was Greatness, Greatness as being both an inner and outer reality at once --- beauty, strength, laughter, greatness, freedom --- for in this time God saw that both dream and reality were just as important to the Human soul - and God saw that all morality as a property concept, depends on a division between dream and reality; therefore Christ taught in the period He were on Earth, that those which have acted out of Greatness - clarified thoughts and emotions, goes further into the eternal life - those who acted out of the moral concept of property, certainly out of infliction and looking glasses, goes out into the judgement - but all natures and types achieves Justice for both Heaven and Hells experiences --- Both the sinner and the saved gets justice for their experiences; this is our three-sided salvation plan; God allowed that Man and Womankind created themselves to destroy the possibility for a moral bond, an attachment that man and womankind did not wish for - therefore power, and authorities became unwanted in the creation: removed, banned, declared as blasphemy in the creation of mankind and then the individual, which is Gods nearest and dearest creation: God is both an inner and outer reality; morality and immorality are just the inner violence as outer love --- only as a protection against power, power were allowed for Mankind; power as prejudice and abuse, as conceptions, as unjust laws and laws broken without a right; narrow normality and social status; infliction and looking glasses --- for the number of life in the form of the consciousness were: 0 - and the consciousness number in the form of wanting, feeling, creating, judging, were: 1 - the overflowing used 0 as a method for 1 - the closed used 1 as a method for 0 - and through this chainbreaking-mysticism became immanent in the creation, the true opposite of power - for everything that is revealed is of light - and the rights of Man and womankind is revealed, through the Crucifixion - because Sin were prejudice --- Christ saw what they did not see or could not see - so that we can be saved, not only from our own Sins, but also from the moral and immoral oppression - but one of the souls hiding in the cosmic abyss, which represented the opposite principles of the Holy trinity: God, Christ and Mankind - not all as a God, but as sharing Golden Thrones with God - because atoms meant energy and energy meant negative energy: the self-glorifying, the psychologically impure, the camouflaging, the ones that did not wish to be humiliated; morality and immorality became envious with us, for also the souls of the cosmic abyss, which from the beginning of time, not as a physical being, but as a principle, had been Gods opposite and tried to introduce A inverted Pendulum-Dualism in the Original world - had part in the creation at one point: the Action!

everything else:

the exeeding, the insight, the celebration of life, the independence - it did not know, it did not need - it could not take or could not want; and they did a failed attempt to do as Mankind, create itself, feel the body being strengthened by the spirit, but only a gleam arose, and out of this unclear, drunken gleam, Satan, the original worlds Demon, arose - he who hid hatred behind kisses; the Fifthinity of the Creation were impurified and filthified with power, something it did not know as relation, only as protection - Satan dragged us down to earth so that the evolution to-sided inverted image of life started, truth became will to power instead of truth as will to relation, and since the actual God, the God of the Visigoths, were power in the Original world, and its morality and immorality, were power on earth, it falsified it so that it seemed like it represented God -

and though that the idea about the Falsified, Historical God as the great world religions adore and prey to, hopelessly, because the falsified, Historical God barely has power on earth or anywhere, where created:

The Jews, the Christians, the Muslims -

mankind now suffered under power and statusrelations which made the truth as will to relation into a introvert individual expressing love as violence -

now we had to be evil towards one and another for our own justices cause - only injustice humiliated, and only humiliation raised up --- for the believers adored truths and facts, not people as God had given them a commandment to do -

they approached each other through the Word, by falsifying each others reality, and not approaching each other through the will to relation, by taking reality up in oneself, without the moral Word -

therefore God rejected them in rage, the moral and immoral, and therefore God did not want to love them but loved them because the powerless asked if he would: it is us that know them, not the opposite; or, more correct: they can only be truthful by rejecting their truths, and that is the moral concept of property's infliction and looking glasses ---

but us, they who were promised other things, because we were neither predator or prey, neither active or passive, he loved of all his heart: without infliction, looking glasses and the Words inversion; Mankind and Womankind can only fulfill his mission by representing and expressing Love as Great - as Gods image, tells us, as God is Great, we are too - only as violence expressed as love they approach us; and on earth, created for our exploration and celebration as greatness expressed by love, and through that Salvation, morality arose as the inverted image of Gods and Mankind's Greatness -

but it did not help:

because it is only the God which preaches Satan as both a pack-animal, psychopath and powerperson, which can save, and it is only the individual, beyond power and powerlessness and their drives - which are neither obedient or disobedient, but rather a way of thinking without the moral concept of property - the moral way of life; neither predator or prey - but rather overcoming what makes them what they are ---

which gets saved -

for life should be interpreted as poetry: intoxication, insight and mysticism -

because only the one which wants power, and wants it through the truths of the will to power, which are falsified, by the powerpersons drive for moral property, has to deny and fight certain aspects

of life; because God created the truth, in mankind's expectation and extension as Greatness expressing Love, as their image, Inverted by the Powerpersons monopoly of the Word - God's Word, ruled Earth; this was possible because the moral powerpersons violence expressed itself as Love, in an Inverted Pendulum-Dualism, and its anxiety and Hunger reached out for the Word - the passive did not need it; and Greatness is to confirm both sorrows and pleasures through both virtue and skillfulness; so that Mankind itself should be able to be the truth - and this truth we came closer to, through the Crucifixion of Christ:

The Dionysic, Political and Teutonic Cross -

because the crucified died not just for your own sins, but also for others' sins against you - Christ also feels deep Joy and Gladness over our Freedom and sense of Happiness ---

for light wants eternity and eternity wants light, and everything that is neither moral or immoral, continues on into the light - the rest will experience that their earthly enemies, the sinners, have absolute power over them - all of the things that made them superior on earth, are taken from them and turned upside down ---

so that the meaning of life itself should be to triumph, through justice and insights, not through, injustice and denials -

God is not the different peoples and ages' impotent morality, but God is an evolutionary step -

but God is an experience of eternity, context and dependence of the context -

because Jesus did not die for your sins, but for your rights: and the right is Greatness: to be both inner and outer reality without inflictions and looking glasses -

and all true Greatness is power over yourself, and not over others - and by being given the Eternal life in both the material and spiritual, through Love in the material and in the spiritual dimension -

we shall return to earth with full power over ourselves, and live there for all eternity, without morality, immorality and the two-sided evolution, and experience many different fulfilling and deserved lives in eternity - to come back and live the life we deserve - when the universe disappears, Man and Woman-kind stretches out into another Universe and use the qualities of the cosmic fabric to create a new life for itself; all forces are working for us ---

and true Celebration of Life is to be in touch with the one you are, beyond pressure, felt injustice and unclear thoughts and unclear feelings; for towards God all power was sinful: it was they who needed us ---

the powerless - in all its historical shapes and forms, were the source to all morality, and the group - as a divided reality, had to be banished and pushed out of the evolution -

for mankind's mind and body were one, and not two -

immorality most of the time, were in the sender, and not in the receiver - not reward or punishment, but approached as a free man - for the one and only God were not just judging and forgiving, but also accepting -

because this Book of the Visigoths brings forward a new image of God:

we are saved, not from natural sin created by unnatural obstructions and divisions: but from the moral and immoral powerpersons' prejudice and abuse - just where unjust have power and unjust where they just have power -

and only the Individual as a fellow Man, in all its misery and thankfulness are being saved -

Satan, both as a Psychopath and a powerperson, makes us suffer - and we suffer when we submit to power and statusrelation, we suffer when we relate without energy and active action - without Greatness, Freedom and sense of Happiness - what the believer of the past did not have the mind or soul to realize, were that God saves both through virtue and skillfulness - those two withdraw and cancel all earlier Commandements on obedience and disobedience ---

God is Great, and therefore Man and Womankind is Great too - and both Jesus and Caesar are Great --- both joys and sorrows are Great - but remember that God has given the believers conversion to the Greatness - and all true Greatness is power over yourself, and not over others - on earth, because that is where power and powerlessness existed as injustice, and not as justice - for the life of Man, tragic and and glorious, can best be compared to a purple robe; what the Crucified died for, was not our Sins, but our Greatness, Freedom and sense of Happiness - saved, not because others tell you that you need to - saved, when others tell you that you need to - when you are not being pressed and forced: salvation, as remembering who you were or who you wanted to be ---

and God has, through the Historical struggle between the powerperson and the powerless - in any form, which is primary, and class, race and gender are secondary, made it so that Good and Evil are natural selection, and that Good and Evil are parallel tracks in Time and Space ---

we now did not have a obedience, but a Greatness relation to God - and true Greatness is power over yourself and not over others - because only being able to, like the pack-animal, psychopath and powerperson that rules over us best through love, because it gives us shame and guilt, and gives us all the negative emotions as proof of them, relate through power, were not good enough - because man and womankind has dominion over their own mind and body ---

Happiness is being able to change where that is necessary, and accept yourself and the circumstances where that is necessary, and Happiness is confronting yourself where it is necessary, and escape where it is necessary - all out of cleansed, settled and clarified emotions and thoughts -

Towards God's mercy we do not fall down on our knees and weep, with our face covered with tears, we are raised up, because our weaknesses were not just a shameful sin, but also something that we had been exposed to: something that we wanted to express differently, something that we wanted to start all over again with; something we were forced into believing were correct; we are responsible as far as our Salvation goes -

because since Christ made those who believed in him the last time, to give up their sins, he would make those who believe in him this time, to give up their moral concept of property: because sin was part of the concept of property -

Christ has come to call the just and the just think and feel that they have a right towards everyone else - they feel morally entitled ---

the Heaven we were promised was to be free from your own and others concept of property; that is moral property: their objection right; for in Heaven no one does a Good action out of a Evil Thought, and no one does a Evil action out of a Good thought: Dualism does not exist there - only a inner and outer reality that thinks, feels and acts as one; all drives are bursting with light about to explode, no drives are not realized in its original, intended and real expression: all true Greatness is power over yourself and not over others because the power only does what it has to do, and not what it should.

DOWN WITH TRADITIONAL, CONSERVATIVE RELIGION WHICH SEES
ITSELF AS THE ONLY ANSWER!
DOWN WITH TRADITIONAL, CONSERVATIVE MORALITY WHICH SEES
ITSELF AS A VALID NORM FOR EVERYBODY!
